

SCHOOL DRESS CODE

A school dress code is important to a school's program. It not only helps set a standard appearance for a school but can also have an effect on the behavioral and educational environment along with the public's perception of the school. The thoughtful design and careful administering of a dress code is essential to the success of a school.

1. Philosophy

WLA bases its dress code on three basic beliefs:

- ✚ The belief that school is a unique and distinct social setting and as such qualifies for a specific standard of dress.
- ✚ The belief that school dress should be neat and sharp.
- ✚ The belief that school attire should avoid extremes in dress, style, jewelry, hair, and general appearance.

2. Guidelines for Dress

Students will present a neat and orderly appearance. Make-up is not permitted. Jewelry is not to be worn with the uniform. Female students may wear one pair of short earrings or posts and they may wear a clear nail polish. Slacks may **NOT** be worn under skirts during school day. Male students are not permitted to wear earrings during school.

Please see charts for dress code requirements on the pages that follow.
